PRACTICE RESPONSIBILITIES:

- 2019-Present
2017-2019
- Lipscomb University –**
Executive Director of the School of Nursing
Associate Executive Director of Nursing for Degree Development/
Associate Professor of Nursing (Full-Time)
Develop, lead, and maintain new nursing programs within the current School of Nursing. Prepare and maintain Accreditation Commission for Education in Nursing (ACEN) and Tennessee State Board of Nursing (TBON) documents for all new programming within the School of Nursing. Develop faculty and student handbooks and policies and procedures for all new nursing programs. Recruit, hire, and retain all faculty and staff for new programs within the School of Nursing. Assist with marketing and student recruitment for new programs within the School of Nursing. Prepare, manage, and maintain the budget for all programs within the current School of Nursing. Develop and maintain continuous program improvement plans for all new programs within the School of Nursing. Orient and mentor new faculty, staff, and students. Encourage, mentor, and lead the faculty and students in professional development and dissemination of evidence-based practice. Mentor new faculty regarding the mission, purpose, and philosophy of the university and nursing program, teaching excellence, scholarship and leadership. Develop partnerships with other professional schools and departments within the university and outside organizations to enhance interprofessional collaboration. Collaborate with the University Executive Leadership Team regarding programmatic, academic, and resource needs. Represent the School of Nursing within the organization and in the greater community.
- 2015-2017
2009-2015
- College of the Ozarks –**
Associate Professor of Nursing (Full-Time)
Assistant Professor of Nursing (Full-Time)
Major responsibilities included syllabi/course construction, course/clinical coordination, theory preparation and delivery, development of theory/clinical student learning outcomes, creation of exam blueprints. Assisted in program development, state board and accreditation (initial and continuing) processes, including self-study document creation, program evaluation and systematic program improvement processes. Supported and accepted the mission and philosophy of the College and the Department of Nursing. Created a nourishing teaching and learning environment. Participated in development, maintenance, and evaluation of curriculum and program policies. Assumed total responsibility for assigning, supervising and evaluating students in clinical area. Served as a resource person and role model for students and other instructors. Mentored/led/supported new faculty. Oriented students and new faculty to clinical. Selected learning activities, audiovisual materials, textbooks, library references, computer software and other course materials to facilitate student learning. Evaluated student assignments. Made course/clinical recommendations to and served on the curriculum committee. Assessed community resources for possible use in enriching the educational program. Maintained up-to-date files on all details of the portion of the teaching program in which delegated. Assisted in student recruitment and admission activities as designated by Nursing Program Director. Served as an academic advisor for assigned number of students. Maintained confidential student records. Maintained or upgraded clinical and education competence. Utilized evidence-based practice for improvement of classroom presentation and clinical teaching.
- 2010-2012
- Sunbelt Staffing Company – APRN (PRN)**

Completed in-home visits for insurance members with chronic physical and psychosocial illnesses. Performed complete health history, review of systems, medication analysis, head-to-toe physical assessment, environmental screening, PHQ-9 Depression Screening, and Mini-Cognitive Test on each individual. Confirmed previous diagnoses and documented new diagnoses based upon findings. Completed in-depth patient teaching regarding chronic disease management, medications, health promotion and disease prevention. Coordinated appropriate referrals/consultations. Suggested further diagnostic testing, medication additions/changes, and appropriate durable medical equipment.

2008-2010

North Arkansas Regional Medical Center – APN

Major responsibilities included managing acute/primary care of all hospital employees. Tracking, addressing, and maintaining accurate records of all employee communicable illnesses and occupational exposures. Conducting health-related new hire activities, including a medical review to assure the employee can perform the duties required by the job (TB skin testing, respirator fit testing, drug screening, etc.). Providing aggressive case management for the worker's compensation program. Coordinating the leave of absence program and determining an employee's eligibility under the Family and Medical Leave Act. Coordinating and implementing the Occupational Health and Wellness Program. Directing and maintaining the Wellness Center. Coordinating and implementing employee and community Health Risk Assessments, reviewing results, and devising individualized plans of care. Assisting with American with Disabilities Act compliance by recommending appropriate job placement and reasonable job accommodations. Devising and presenting various department in-services. Creating, implementing, and presenting interdepartmental Performance Improvement projects.

2006-2008

Lifesigns Physical Assessment Center - RN

Major responsibilities included managing/directing ancillary clinical staff. Administering cardiopulmonary treadmill stress tests and completing preliminary interpretation of results. Drawing blood and preparing to send to lab. Processing in-house lipid profiles. Administering vaccinations and TB skin tests. Administering visual acuity, auditory, physical demands, and urine drug screenings. Assisting clinicians with Pap smears. Returning phone messages. Answering any and all patient's questions. Preparing and sending follow-up letters. Calling in prescriptions. Ensuring adequate upkeep of all cardio pulmonary stress testing equipment, crash cart, oxygen tank, and Cholestech machine. Attending and working all private and corporate health fairs as needed.

2004-2006

Skaggs Community Health Center - RN

Major responsibilities included providing basic nursing care to individuals on a medical-surgical unit, including telemetry monitoring. Performing as a charge nurse. Acting as a preceptor to registered nursing students. Serving as a *Superuser* on an Information Technology team: providing computer assistance to physicians, nurses, and nursing assistants.
